

# MINNESOTA NWTF 2022 WILDLIFE PLANTING AGREEMENT

By accepting this seed product, you are agreeing to the reason for the MN NWTF Conservation Seed Program.

The program is to provide bags of corn seed, purchased by the MN NWTF to be used for wildlife habitat only.

The purpose of the program is to provide food for wild birds and animal, it is not intended for domestic use of any kind.

The plants must remain in the field throughout the following winter. The plants may be harvested the following spring, but the harvested product must be used as wildlife feed. The land may also be readied at that time for the following springs plantings.
